## Siidrikunsti Meistriteos

### Print

#### EST

Saku uue siidri printreklaame ei mõelnud välja mitte reklaamiagentuuri disainerid, vaid 10 Eesti tippkunstnikku, kes löid siidrist inspireerituna unikaalsed kunstiteosed, mis nende arvates kõige paremini uusi tooteid iseloomustasid. Kampaania lõppedes müüdi originaalteosed oksjonil, millest saadav tulu läks kunstnikele.

Kunst ei ole väljamõeldis. Kunst on tõlgendus elust. Kunstnikud ammutavad inspiratsiooni kõigest, mida nad enda ümber märkavad ja tunnetavad. Loodusest ja inimestest. Emotsioonidest ja sündmustest. Kunstist ja kunstnikkest inspireerituna lõi Saku Ölletehas säilitusainete- ja gluteenivabad, ilma lisatud suhkruta siidrid „Pilvine õun“ ja „Mesine pirn“. Uued naturalsed siidrid inspireerisid omakorda andekaid Eesti kunstnikke looma midagi kaunist ja kordumatu.

„Pilvine õun“ ja „Mesine pirn“ — siidrikunsti meistriteosed!

The print ads of Saku Brewery's new ciders were not created by advertising agency designers but by ten Estonian top artists. Inspired by the new ciders, they created unique works of art they found best suited to characterize the new products!

When the campaign ended, the original works of art were sold at an auction and the proceeds of the auction went to the artists.

Art is not fiction. Art is an interpretation of life. Artists draw inspiration from everything they see and feel. From nature and people. From emotions and events. Inspired by art and artists, Saku Brewery created the new ciders "Pilvine õun" (Cloudy Apple) and "Mesine pirn" (Honeyed Pear). The ciders contain no preservatives, gluten or added sugar. The new natural ciders inspired in turn our young and talented artists to create something beautiful and one of its kind.

"Pilvine õun" and "Mesine pirn" — masterpieces of the art of brewing cider!
